

NATURAL HAZARDS EXTENSION

Elementarschadenversicherung — Extension to Home Contents Insurance

Document: AD-EL-EXT-2025-EN · Valid from 1 January 2025

Allianz Direct Versicherungs-AG · BaFin registration 1234567 · Subject to German Insurance Contract Act (VVG) · GDPR compliant

IMPORTANT: This extension covers household CONTENTS only — not the building structure. Building natural hazards protection requires separate Elementar-Gebaudeversicherung. This extension is required for flood coverage — the standard home contents policy does NOT cover flooding. Standard deductible: EUR 500 per natural hazard event.

Emergency claims (24/7):	0800 123 4567 — free from all German networks
Online portal:	mypolicy.allianz-direct.de
Claims email:	claims@allianz-direct.de
Ombudsman:	Versicherungsbund e.V. · ombudsmann.de · free and independent
Governing law:	Federal Republic of Germany · VVG · BGB

PART A — INSURED NATURAL PERILS

A.1 Flooding (Hochwasser)

We cover damage caused by overflow of rivers, lakes, canals, or reservoirs beyond their normal banks, resulting in inundation of your premises. ZÜRS zones 1-3: up to full sum insured, EUR 500 deductible. ZÜRS zone 4 (high flood risk): EUR 20,000 sub-limit, EUR 1,000 deductible. Check your ZÜRS zone at zuers-geo.de.

A.2 Surface Water and Sewer Backup (Starkregen / Rückstau)

We cover damage from surface water — rainwater flowing overland from extreme rainfall that overwhelms drainage capacity and enters your home. Sewer and drain backup caused by storm overload is included. DWD weather records confirm the event. Deductible: EUR 500.

A.3 Groundwater Ingress

We cover groundwater rising above its normal seasonal level and entering through floor slabs or basement walls. Must be an extraordinary meteorological event, not normal seasonal fluctuation. Deductible: EUR 500.

A.4 Storm — Enhanced Cover (Beaufort 7+)

Standard home contents covers storm from Beaufort 8. This extension lowers to Beaufort 7 and adds coverage for garden furniture, outdoor tools, and outbuilding contents. Garden sub-limit: EUR 3,000. Deductible: EUR 250.

A.5 Earthquake, Subsidence, Avalanche

Earthquake: magnitude 4.0+ confirmed by BGR. Subsidence/landslide (Erdrutsch): sudden ground movement, not gradual settlement. Avalanche (Lawine): relevant for alpine regions. Deductible: EUR 500 for all natural ground movement events.

PART B — EXCLUSIONS, SCHEDULE AND CLAIMS

B.1 Exclusions

No.	Exclusion
1	Burst pipe water damage — covered under standard home contents Section B.2, not this extension.
2	Building structure damage — requires Elementar-Gebäudeversicherung.
3	Normal seasonal groundwater fluctuation — must be an extraordinary event.
4	Foreseeable and preventable damage (repeatedly flooded basement without flood barriers).
5	Damage not reported within 7 days (30 days for declared disasters).
6	ZÜRS Zone 4 claims above EUR 20,000 sub-limit.

B.2 Schedule of Cover

Coverage	Status	Limit	Deductible
----------	--------	-------	------------

Flooding — ZÜRS zones 1-3	Covered	Up to sum insured	EUR 500
Flooding — ZÜRS zone 4	Covered with sub-limit	EUR 20,000 maximum	EUR 1,000
Surface water / Starkregen	Covered	Up to sum insured	EUR 500
Sewer backup (Rückstau)	Covered	Up to sum insured	EUR 500
Groundwater ingress	Covered	Up to sum insured	EUR 500
Storm enhanced (Beaufort 7+)	Covered	Up to sum insured	EUR 250
Garden and outdoor contents	Covered	Up to EUR 3,000	EUR 250
Earthquake (magnitude 4.0+)	Covered	Up to sum insured	EUR 500
Subsidence and landslide	Covered	Up to sum insured	EUR 500
Avalanche	Covered	Up to sum insured	EUR 500
Emergency mitigation costs	Covered	Up to EUR 2,000 (no auth.)	EUR 0
Building structure	Not covered	Gebaudeversicherung needed	—

B.3 Claims — Natural Hazard Events

Safety first: do not enter a flooded property until fire brigade (Feuerwehr) confirms safe. Document everything with photos and video before any cleanup. Mitigation obligation (VVG §82): take all reasonable steps to limit further loss. Emergency mitigation costs up to EUR 2,000 covered without prior authorisation. Report within 7 days: 0800 123 4567 or mypolicy.allianz-direct.de. For declared natural disasters: 30-day reporting period.

APPENDIX — FREQUENTLY ASKED QUESTIONS

The following questions and answers are provided for quick reference. They are based on the policy terms above and do not replace or override them. In case of any discrepancy, the policy terms in the preceding sections prevail.

Q: Is flood damage covered by my home insurance?

A: NOT by the standard policy. You need the Natural Hazards extension (Elementarversicherung). With this extension: flooding from rivers (EUR 500 deductible), surface water from heavy rain, sewer backup, and groundwater ingress are all covered. ZÜRS zone 4 properties: EUR 1,000 deductible, EUR 20,000 sub-limit.

Q: What is the difference between burst pipe water damage and flood damage?

A: Burst pipe (Leitungswasser): water from inside your home — pipes, appliances, radiators. Covered by standard home contents policy. Deductible EUR 250. Flood (Hochwasser/Überschwemmung): water from outside — rivers, heavy rain, groundwater. Requires the Natural Hazards extension. Deductible EUR 500.

Q: Does the extension cover heavy rain or surface water entering my home?

A: YES. Extreme rainfall (Starkregen) causing surface water to enter your property is covered. Sewer and drain backup from storm overload is also covered. We obtain DWD meteorological records to confirm the event. EUR 500 deductible.

Q: Is earthquake damage covered?

A: YES. Earthquake magnitude 4.0+ confirmed by BGR is covered. EUR 500 deductible. Up to full sum insured. Aftershocks treated as one event.

Q: How do I claim for flood damage?

A: Step 1: Safety — wait for Feuerwehr clearance before entering. Step 2: Photograph all damage before cleanup. Step 3: Emergency drying/pumping up to EUR 2,000 without pre-authorisation. Step 4: Report within 7 days: 0800 123 4567. Deductible EUR 500 (EUR 1,000 for Zone 4).
